Wireless USB Adapter Set Solutions

Single-Chip Based Solutions

All the Adapter Set solutions are based on Wisair's Wireless USB single chip (WSR601) — delivering superior performance at the lowest cost.

The Adapter Sets are fully certified, support worldwide shipments with a single SKU, and are production ready.

Product branding is available through an enhanced customization package.

Wireless USB Adapter Set

The Wireless USB Adapter Set enables 'upgrading' existing USB devices to Wireless USB.

Consisting of a pair of pre-paired Wireless USB adapters—one for the device and one for the PC—the solution brings Wireless USB connectivity to a range of devices, such as external hard drives, printers and media players.

Connectivity: USB port

Wireless USB Audio Adapter Set

The Wireless USB Audio Adapter Set allows users to wirelessly play any audio file stored on their notebooks/netbooks and Internet radio on an external speaker system or home theatre system, and enjoy quality surround sound.

With a hassle-free setup, enabled by a pre-paired set of adapters, users can simultaneously stream audio and surf the net (using WiFi), without the audio quality or the surfing speed being affected.

Connectivity: S/PDIF and 3.5mm audio jack (stereo)

Wireless USB Adapter Set Solutions

Wireless USB A/V Adapter Set

The Wireless USB Audio/Video Adapter Set allows users to watch and share any notebook/PC content (such as pictures, movies and presentations) and any Internet content, on their HDTV, a remote projector or monitor, without cable limitations.

The PC Adapter connects to a USB port (available in all notebooks/PCs) and the A/V Adapter connects to an HDMI port (available in all flat TVs) or VGA port (available in all projectors and monitors), for wireless connectivity between any notebook/PC and any TV/projector/monitor.

Audio is supported via the HDMI port (with the video) or via a separate audio jack for a complete wireless audio/video experience.

The Wireless A/V Adapter Set provides full room coverage, is easy to set up and use and is an ideal solution for home and office users alike.

Connectivity:
Option 1: HDMI (Audio and Video), VGA (Video), 3.5mm jack (Audio, Stereo)
Option 2: VGA (Video) and 3.5mm jack (Audio, Stereo)

TV/Projector

Wireless USB Display Dock Set

The Wireless USB Display Dock provides wireless connectivity between a notebook and a monitor, keyboard, mouse, and speakers.

Users can enter a room with their laptop or netbook and immediately get access to their desktop peripherals and their display.

Connectivity: VGA or DVI, 2 USB ports (for mouse and keyboard), 3.5mm audio jack (stereo)
